

HLM March/April 2012 Word Search Solution

Letters in yellow shaded strips are in the story below.

Letters in red spell out our nation's capital.

Letters in grey boxes are the three leftover letters.

In this NEW AGE, the ASSISTIVE TECHNOLOGY is amazing, and more so for people who do not HEAR well or are DEAFENED. When Founder ROCKY STONE started SHHH (now HLA of America*), doubtless he never dreamed COCHLEAR IMPLANT or stenographers who do REAL TIME captioning that is projected on a screen as someone. We no longer have a bulky box that HANGS around our neck. Old hearing AIDS were ANALOG and mostly just everything, thus were only more NOISE to our EARS. A DIGITAL DEVICE can be programmed for specific sound knowledgeable AUDIOLOGIST! The AUDIO on a TV can be kept low because that medium, and others, now use CAPTIONING. A LOOP or an FM system can be installed almost anywhere. It is good that people still learn and Sign LANGUAGE and FINGER SPELLING. TEXT messaging and EMAIL have made COMMUNICATION so much easier for us, but those things can fail. Many people use SPEECH READING without realizing it. TINNITUS and NERVE I are still problems. We may not sing well, but watch us DANCE! There are now so many ways to ACCOMMODATE whose ears do not work well. Life is GOOD! We truly live in the BEST of TIMES! How SWEET it is!
