

Walk4Hearing is Back In Your Community This Fall

BY WALK STAFF

Walk4Hearing is the only nationwide event bringing attention to hearing loss and promoting the importance of hearing health. Funds raised support HLAA's national awareness and education programs, HLAA Chapters and State Organizations, and alliance groups who help extend HLAA's mission into local communities.

This fall, we're moving forward with plans to host Walk4Hearing events in-person. Attend an event at one of 12 locations. If you prefer, you can still walk in your neighborhood with your family or team while raising funds to support our mission.

No matter how you choose to participate, we're all joining together to bring hearing health front and center.

- September 26** – Chicago
- October 3** – New England
- October 9** – Kentucky
- October 10** – New Jersey/ North Carolina
- October 16** – Washington DC
- October 17** – Pennsylvania
- November 6** – Arizona

To be announced:
Buffalo/Houston/NYC/San Diego

Visit walk4hearing.org for more information, to register, and learn how we are celebrating Walk Day in your area. In person activities may vary due to CDC and local public health guidelines.

"We still had a lot to learn and to understand about our daughter's hearing loss. The Walk gave Henley the ability to meet other children and adults like her. On Walk Day, she saw another little girl pointing to her implants to show Henley that they were the same. The Walk not only teaches us about her world, but it is a day to celebrate our daughter and all she has overcome."

—Jennifer Daniels, Washington DC Walk4Hearing

Take the first step, today! Contact Walk4Hearing Senior Manager Ronnie Adler, radler@hearingloss.org, or Walk4Hearing Manager Ann Rancourt, arancourt@hearingloss.org.

Thank You, Spring Walkers!

On Walk4Hearing Weekend communities teamed up to educate the public and celebrate Walk Days with a spectacular celebration. By walking in neighborhoods, teams around the country kept Walk4Hearing going while funding important services for hearing health and hearing loss.
