

# A Successful Year for Our Nationwide Community of Support in Action

Fall Walk4Hearing events came to 12 cities across the U.S., bringing our community together to raise awareness and break down barriers to hearing health. In 2024, we welcomed 596 teams and more than 5,800 participants, raising nearly a million dollars to support people with hearing loss! We are so proud of the enthusiasm and dedication you brought to each Walk.

Throughout the year, we witnessed remarkable efforts to raise awareness and funds, shared inspiring stories and experienced a profound sense of community. Participants laced up their shoes, demonstrating that together, we can make a significant difference in the lives of people with hearing loss.

Will you help us inspire and bring hope to millions with hearing loss in 2025?
